

A block diagram contextualizing basalt and rhyolite in outcrops, roadcuts, excavations, and wells in the Snake River Plain near Arco, Idaho

Picabo: Garwood, D.L., Kaufman, J.D., and Othberg, K.L., 2011, Geologic Map of the Picabo Quadrangle, Blaine County, Idaho: Idaho Geological Survey Digital Web Map 131.

Rhyolite exposed in the Snake River Canyon at Shoshone Falls and Twin Falls

Southwest The "block" geometry of this sketch is very schematic. Southeast

Howe Point is at the southernmost tip of the Lemhi Mountains, at a high in Idaho Highway 33.
